Welcome to PokwyWeb, as you can see I have changed the front page. I apologize for not finishing a lot of the pages in my website but school has been a big time consumer. I recently purchased another domain for Christmas, <http://www.enferno.net>, that should be up soon. That site will be based on graphics and quake. **THE CONTEST IS FINISHED! MAKE YOU LAST SUBMISSIONS SOON!** Thank you for your time. Also, before entering my page, please set your screen to 800 x 600 full screen, or 1200 x 1000, anything between is also ok. If you have AOL or you screen at 600 x 480 this site will look like crap.

Biography

"The Boss" hit the music industry with the release of his first album Greetings From Asbury Park, N.J., in 1973. The Wild, the Innocent, and The E Street Shuffle quickly followed this release. The albums received critical claim with comparisons to Bob Dylan, but did not sell well with the fans. Bruce Springsteen's career had begun.

Springsteen was born in Freehold, New Jersey, on September 23, 1949. He grew up in a "normal middle class family" and first started playing around with the guitar in High School. After graduating from High School he moved to New York to try and break into the Folk Music scene. After getting nowhere on this front he returned to, be it reluctantly, to Asbury Park, N.J. and hooked up with a number of bands. With brief stints with such bands as Rogues and Dr. Zoom and the Sonic Boom, Springsteen found himself a place with the E-Street Band, and with them he remained until 1989. Though, this wouldn't be the last time they would play together.

The 1973 albums marked the beginning of Springsteen's career and since then,

Grievance: This isnt something that happened to me, but, after hearing from my girlfriend, about how badly verizon has screwed her over, i thought of this site, and came over. she has had service thru verizon for about a year, and only lately has the service gotten horrible. for example: my girlfriend's bill is due every month on the 7th. she recieved her bill on the 19th, with a cut off notice for the 10th. cant they even get that part right? for some reason, her service, here in town, is always roaming, now. she has made countless calls to verizon, to find out why. according to them, its not possible. ("your residence is less than 100 yards from a tower"). however, on her bill, every call she has made from corpus is roaming., even by her house. up until she had her phone for about 6 months, the name showed up differently than hers, on the caller id. i will admit, this isnt as bad as some folks have had it, but I just thought yall should know, verizon is skrewin people over down here, also.
